

## Versatile Leak and Spill Protection

### FiberLink Absorbent Socks

Part #: 116340

FiberLink® Universal absorbent socks are convenient, lightweight and economical. These socks absorb any liquid and are great for commercial establishments, work areas, industry and home use. They are made of 100% absorbent fiber filling in a durable polypropylene sleeve.

### Highlights of FiberLink Socks:

- Absorbs up to 5 gallons per case
- Flexible and versatile spill control
- Stops spills from spreading
- Absorbs oil and water based liquids

### Common Uses for FiberLink Absorbent Socks

- Surround spills to prevent spread.
- Encircle crates or leaky barrels.
- Control leaks from machinery and equipment

- Contain condensation inherent with A/C units, ice makers, vending machines, and other refrigeration units.

- Line doorways, roll-up doors, and other entryways to prevent water from entering, especially during wet weather.
- Protect walkways from water flow.
- Use in lavatory overflows to protect floor drains.
