

OVERVIEW

These recessed downlights are the ideal solution for energy-efficient lighting upgrades in new construction or remodeling projects. They seamlessly replace 65-to-75W incandescent lamps in five- and six-inch recessed downlight fixtures, saving money without sacrificing quality. They're easy to install, suitable for use in damp locations and provide 35,000 hours of maintenance-free operation.

KEY FEATURES

- Operation temperature: -4°F - 104°F
- Storage temperature: -4°F - 104°F
- THD: 20%
- Ignition time: ≤1.0 seconds
- Indoor use only. Suitable for use in damp locations.
- Fits recessed cans with tension springs
- Module construction includes LED, lens and white trim
- Dimmable down to 10%
- Compatible with most 5" and 6" recessed housings
