

Tempo *Waterfall Edge*

Tempo creates a classic, seamless waterfall edge that continues to be one of the most popular choices for a wide variety of applications. The ½" radius on the waterfall edge and backsplash provides a tighter, more contemporary look.

Tempo Waterfall Edge

The future is beyond flat. *Experience VT Dimensions®*

The Tempo waterfall edge profile adds dimensional beauty and character to VT Dimensions countertops. More than just a flat surface, VT Dimensions bring everything together into one seamless and contoured offering—with the depth, style, and seamless edge you want.

Experience a whole new dimension in countertops with VT Dimensions.
